Power of  
suspension  
and extension  
of Act.

#### STATEMENT OF OBJECTS AND REASONS.

It was suggested at the First Conference of Labour Ministers held in January 1940 that the Central Government should consider the question of passing an enabling statute giving Provincial Governments power by notification to provide for the compulsory closing of shops and commercial establishments for a maximum period of one day in the week, leaving it to the Provincial Governments to provide an extra half-day, if they considered it necessary. The present Bill has been drafted after consultation with Provincial Governments and after discussion at the second Conference of Labour Ministers held in January 1941. The Bill will not come into effect in any Province until the Government of that Province directs its application by notification, either to the whole Province or any specified area within it. A further notification of the Provincial Government will be necessary to bring into application the provisions about an extra half-day. It is considered desirable that Provincial Governments should have power to introduce by notification certain business concerns as uniform ones as provided in the Bill. The Bill provides for payment of wages the holidays provided under it. Certain classes of persons and establishments are excluded from its purview. It purports to have power with the Central Government in respect of establishments under its control and with Provincial Governments in respect of all other establishments within the Province, to make regulations from or temporary suspension of the provisions of the proposed Act.
